AI & GENERATIVE AI TRACK / PROJECT 04 OF 05

LearnMate

PHASE 04 OF 08 | PROJECT PLANNING PHASE

Project overview

LearnMate helps students work with scattered course materials through a REST API for uploads and AI-generated learning resources. The brief describes secure accounts, MongoDB storage, Gemini-powered content generation, and a dashboard-facing backend for saved study resources.

Project description

A study-support API for uploading learning materials and generating summaries, flashcards, quizzes, and personalized study plans.

Project status

Not stated in the source brief. Update this document when the team records an agreed status.

Project capabilities

- Study material uploads
- AI summaries and flashcards
- Practice quizzes
- Personalized study plans

Phase description

Break requirements into a prioritized backlog and a realistic sprint plan with owners and estimates.

Project-specific phase focus

Prioritize upload, summary, flashcard, quiz, and study-plan stories for learners.

Phase status and progress

Status: Not stated in the source material.
Progress: Not recorded in the source material.

Tasks and requirements

[ ] Create the product backlog and user stories
[ ] Estimate and prioritize each story
[ ] Assign work and team members
[ ] Set sprint dates and review milestones
