AI & GENERATIVE AI TRACK / PROJECT 04 OF 05

LearnMate

PHASE 07 OF 08 | PROJECT DOCUMENTATION

Project overview

LearnMate helps students work with scattered course materials through a REST API for uploads and AI-generated learning resources. The brief describes secure accounts, MongoDB storage, Gemini-powered content generation, and a dashboard-facing backend for saved study resources.

Project description

A study-support API for uploading learning materials and generating summaries, flashcards, quizzes, and personalized study plans.

Project status

Not stated in the source brief. Update this document when the team records an agreed status.

Project capabilities

- Study material uploads
- AI summaries and flashcards
- Practice quizzes
- Personalized study plans

Phase description

Package the executable project, setup instructions, and documentation needed to review or run it.

Project-specific phase focus

Document setup, supported material flows, API endpoints, and executable files.

Phase status and progress

Status: Not stated in the source material.
Progress: Not recorded in the source material.

Tasks and requirements

[ ] Organize source and executable files
[ ] Write setup and run instructions
[ ] Prepare project documentation
[ ] Check the submission against the deliverables list

Relevant documents and data

Project brief: LearnMate - AI assistant for smarter learning and study support..docx

Phase templates:
- Project Executable Files (7.Project Documentation/Project Executable Files.pdf)
- Sample Project Documentation (example) (7.Project Documentation/Sample Project Documentation.pdf)

Project technology stack

- Node.js
- Express.js
- MongoDB
- Mongoose
- Gemini AI
